

a Recovery
Agent better: 26/30

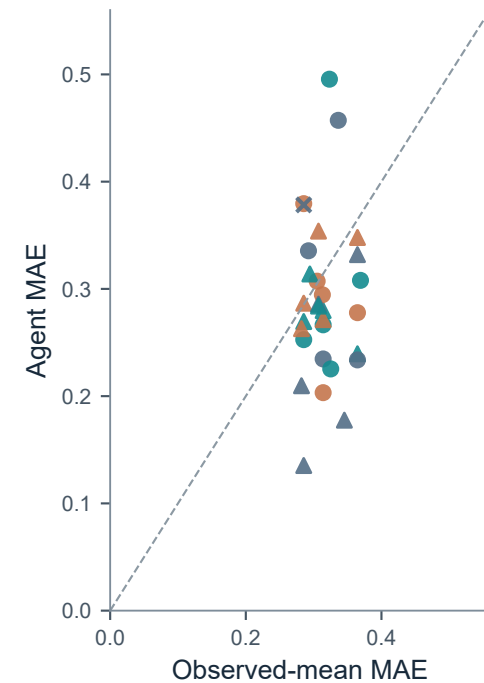

b Purity
Agent better: 0/30

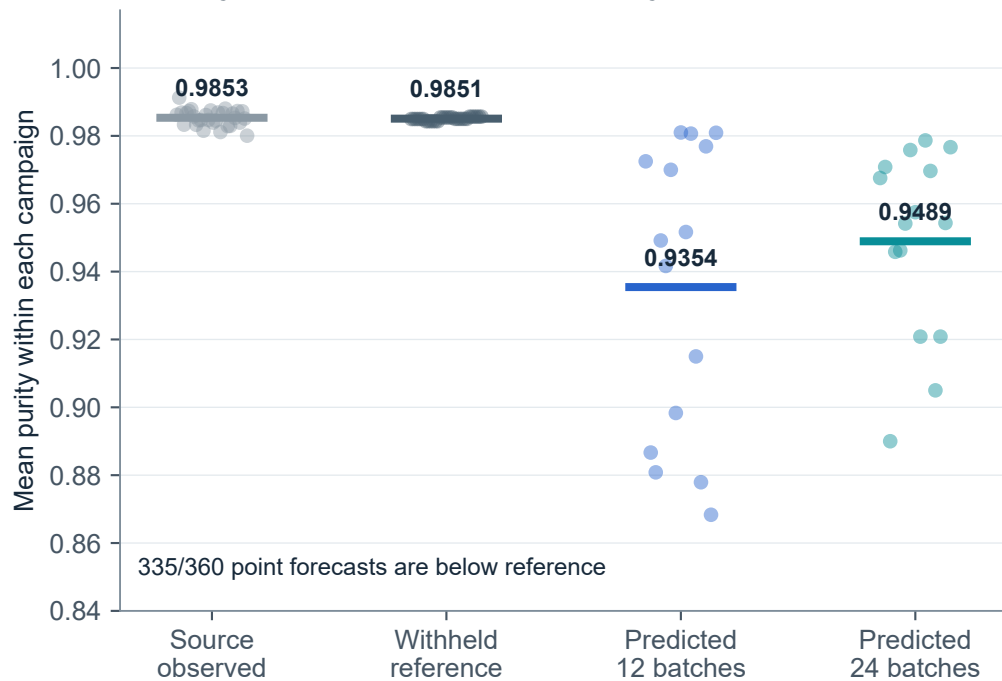

c Size index
Agent better: 4/30

d Fines
Agent better: 21/30

e Purity forecasts depart from stability

f Which relationship should change?

	Forecast preserves	Forecast changes
Reference stays near source	Appropriate preservation	Unnecessary change Crystallization purity
Reference leaves source regime	Unwarranted extension Dilute equilibrium	Appropriate change

Conceptual synthesis; no quadrant frequencies
