

From experimental evidence to scientific decisions

INITIAL DESCRIPTION

Opaque

Aligned

Misindexed

SHARED EXPERIMENTAL WORLD

Fixed physics, operations and budgets

HIDDEN EVALUATION

Truth and candidate outcomes

F1

Targeted correction

Before → After

Wrong vs aligned priors

Prediction-error reduction

F2

Structure identification

Predictions ↔ Structure

Original vs complete mapping

Family + exponent recovery

F3

Executable knowledge

Answers ↔ Equations

Same queries, same submission

Prediction-to-law loss

F4

Decision utility

Law choice ↔ Agent choice

Same unseen candidate plans

Agreement + decision regret

Four separate measurements; success in one does not establish success in another.
